Each year the Career Services Office conducts a survey of graduates from the Rindge Campus regarding their post-graduation plans. An initial questionnaire is distributed just prior to May graduation in conjunction with the Alumni Relations Office and the Career Services Office conducts a mail, phone and/or e-mail survey the following December. Data is also collected from 2011 graduates working directly with the Career Office.

Of the 239 individuals surveyed, career information was obtained from 102 graduates (42.6%) Of those responding to the survey:

- 51 (50%) were employed in professional positions
- 27 (26.4%) were enrolled in graduate school or planning to attend graduate school in 2012
- 31 (30.3%) were still looking for jobs or employed in temporary jobs, internships or non-professional positions
