

ACCOUNTING/FINANCE

FPU BRINGS A TRADITION OF EXCELLENCE TO THE ACCOUNTING/FINANCE DEGREE

ABOUT THE PROGRAM

Your Accounting/Finance major provides a clear career path in a field with lots of opportunities for growth. You can live anywhere and work anywhere with an organization that fits your style — large, small, formal, casual.

You'll learn core accounting and finance concepts and master quantitative tools for making good business decisions. You'll make connections in the business world right away through classes, internships and projects, and be prepared to get your Master of Business Administration (MBA), or Master of Science in Accounting (MSA), which provided preparation for the Certified Public Accountant (CPA) examination.

PROGRAM HIGHLIGHTS

The Business PLUS + Program allows qualified high school students to enter a four-year accelerated bachelors and master's degree program.

ALUMNI SPOTLIGHT

Tom Arisco '18

Insurance Agent, Banker's Life

"The finance degree I received from Franklin Pierce gave me the credibility I need when I speak with my clients. It also gave me a tremendous background of key information I use daily, in and out of the office. The personal connections I made with the faculty and staff allowed me to get the guidance I needed to find out what path was right for me."

STRATEGIES FOR SUCCESS

You can gain valuable experience through opportunities at Franklin Pierce to:

- Participate in our C&S Scholars program, a pathway to internships, co-ops and employment through our partnership with C&S Wholesale Grocers, the largest grocery supply company in the nation
- Join the Small Business Advisory Group to gain practical experience applying your coursework to the real-world challenges of a local business
- Get involved in the executive committee of a club, such as the Accounting Club or Business Minds Club
- Participate in Sigma Beta Delta, the National Business Association's Honor Society
- Connect with Franklin Pierce alumni network from Wall Street to Main Street
- Prepare for our Master of Science in Accounting and earn credits and knowledge necessary for the CPA examination

WHO SHOULD MAJOR IN ACCOUNTING/FINANCE?

You'll find this major a good fit if you have or want to develop:

- Math and data analytics knowledge
- Technology skills with accounting and analytical software
- Strong communication and people skills
- Preference for work activities that follow procedures and routines
